*"Please explain what you mean by "OME has over 60 customers leveraging our services today at over 300 different locations throughout Maryland, DC, Delaware and Virginia."? "*

OME provides energy consulting services that include market research and analysis, strategic planning, budgeting, contract review, cost saving analysis, utility bill review and auditing, and energy brokerage services to clients. OME has customers with more than one facility (location) in the Baltimore and Washington metropolitan area. Sheehy Automotive and Panera Bread are prime examples of this and also have locations in VA and DE as outlined in the answer below.

*"What is the relationship of the entities in Delaware and Virginia to those in Washington D.C. and/or Maryland? "*

We have 2 clients that are based out of Maryland or DC with locations outside of the MD/DC area. Specifically Lemek LLC, a franchisee of Panera Bread operates 35 bakery-cafes throughout the State of Maryland with a single location in Rehoboth Beach, Delaware. This Panera Bread location is the only utility account that OME manages in the State of Delaware.

Open Market Energy consulting services (bill review, budgeting, market research) to Sheehy Automotive with Virginia locations are budgeting and quarterly analysis of bills. All of Sheehy's Virginia accounts are using the local utility for the procurement of natural gas and electricity.

*"Please explain what you mean by the term "commercial "customers" based in Washington D.C. and Maryland" in the response dated January 16, 2015? "*

OME is licensed in Maryland and D.C. to brokerage services for electricity and natural gas to commercial customers. Commercial customers are ones that qualify under PEPCO electricity tariff Type I and Type II or Washington Gas Schedule 2-4.

*"What services is OME providing to the entities in Maryland and D.C.? When did OME begin rendering these services?"*

OME provides energy consulting services that include market research and analysis, strategic planning, budgeting, contract review, cost saving analysis, utility bill review and auditing, and energy brokerage services to clients. Open Market Energy has been providing energy brokerage and business consulting services to our clients since 2007.
